DETAILED ACTION

Response to Amendment

The response filed on September 2, 2004 has been considered but is ineffective to overcome the prior art reference.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 6, 7, 11,12, 14-17, 19, 21-24 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rice (4,884,404) in view of Engler, III et al. (5,452,751) as noted in the previous Office Action.

Claims 18 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rice et al. (4,884,6404) in view of Engler, III et al. (5,452,751) as applied to claim 6 above, and further in view of Jaksha (5,367,933) as noted in the previous Office Action.

Claims 20 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rice et al. (4,884,6404) in view of Engler, III et al. (5,452,751) as applied to claims 6 and 11 above, and further in view of Fukuda (5,868,188) as noted in the previous Office Action.

Art Unit: 3725

Response to Arguments

Applicant's arguments have been carefully considered but they are not persuasive.

Regarding claims 6 and 11, Applicant argues that the prior art references fail to disclose "at least two groups [of hole patterns] having different radial hole center distances for mounting routers having different mounting footprints" and that improper combination of the references is made. This argument however is not found persuasive because, as noted in the previous Office Action, the prior art references, Rice and Engler, III are analogous in that they both teach mounting a router to support bases via various mounting holes in the base in correlation to that of the router. Additionally, the references clearly disclose router table/mounting plates/support for mounting routers wherein there are a plurality of mounting holes in the table/mounting plate. The recitation, "for mounting routers having different mounting footprints" is merely an intended use function and the resulting combination would be capable of performing the intended use.

Because the references are analogous and are concerned with mounting routers to supporting surfaces, proper combination of the references is made and the rejection stands.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Application/Control Number: 09/885,984

Art Unit: 3725

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Page 4

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing

date of this final action.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Shelley Self whose telephone number is (703) 305-5299. The

examiner can normally be reached Mon-Fri from 8:30am to 5:00pm. If attempts to reach the

examiner by telephone are unsuccessful, the examiner's Supervisor, Allen Ostrager can be

reached at (703) 308-3136. The fax phone numbers for the organization where this application

or proceeding is assigned are (703) 872-9306 for regular and After Final communications.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIE or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private

PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
